GLISS MASTER —
VINCENT VAN DUYSEN 2015

The Gliss Master wardrobe collection is an ecosystem. Actually, it is the ecosystem designed by architect Vincent Van Duysen, which redefines the concept of custom wardrobe. Patented technology, elegant finishes, innovation and exceptional customisation options define excellent project function and flexibility features, without renouncing the aesthetic values of design.

MODULARITY

Modularity - Structure

The widths 492 - 656 - 820 - 984 - 1312 - 464 (term. element) mm (19 3/8" - 25 7/8" - 32 1/4" - 38 3/4" - 51 5/8" - 18 1/4") include the left side panel. The total width of the composition will include the final panel of th. 30 mm (1 1/8").

Heights: tot. H 2343 (92 1/4"), door 2313 (91"), int.2253 (873/4"), sliding or flush sl. door inter. 2163 (85 1/8")
tot. H 2439 (96"), door 2409 (94 7/8"), int. 2349 (92 1/2"), sliding or flush sl. door inter. 2259 (88 7/8")
tot. H 2631 (103 5/8"), door 2601 (102 3/8"), int. 2541 (100"), sliding or flush sl. door inter. 2451 (96 1/2")
tot. H 2919 (114 7/8"), door 2889 (113 3/8"), interior 2829 (111 3/8"), only hinged

Assembly instructions

For the assembling of a sliding and a flush sliding door wardrobe a minimum space of 6 cm (2 3/8") is required considering the minimum height of the compartment.
Assembly of the corner element (for wardrobe with doors) requires a minimum extra height of 6 cm (2 3/8").
Assembly of a wardrobe in an alcove requires a minimum extra side space of 4 cm (1 5/8").
This space can be reduced to 15 mm by using special hardware provided on request for the side compartment.
This hardware may only be applied if there are open compartments, hinged doors (excluding SISTEMA 7) and wooden side panels.
For hinged door wardrobes with lighting systems and/or SISTEMA 7 doors this product requires a minimum height of 5 cm (2").
The height can be reduced to 15 mm by inspection on top cod. **PAISPCO1.**

DOORS

155° opening (only for compartments with wooden sides)

On FIND-ME - QUICK - START - TWIN - "A FILO" - BAMBOO - HOLLOW - GRIP - NICHE doors it is also possible to use 155° opening hinges, with an extra charge per individual door. In this case, it is necessary to take special care in inserting internal drawer units, trinket trays and devices.

155° hinges cannot be used on 'A FILO doors (mirror and glass) with width over W 487.

It is also necessary to comply with the diagrams provided here.

NOT with GLASS doors
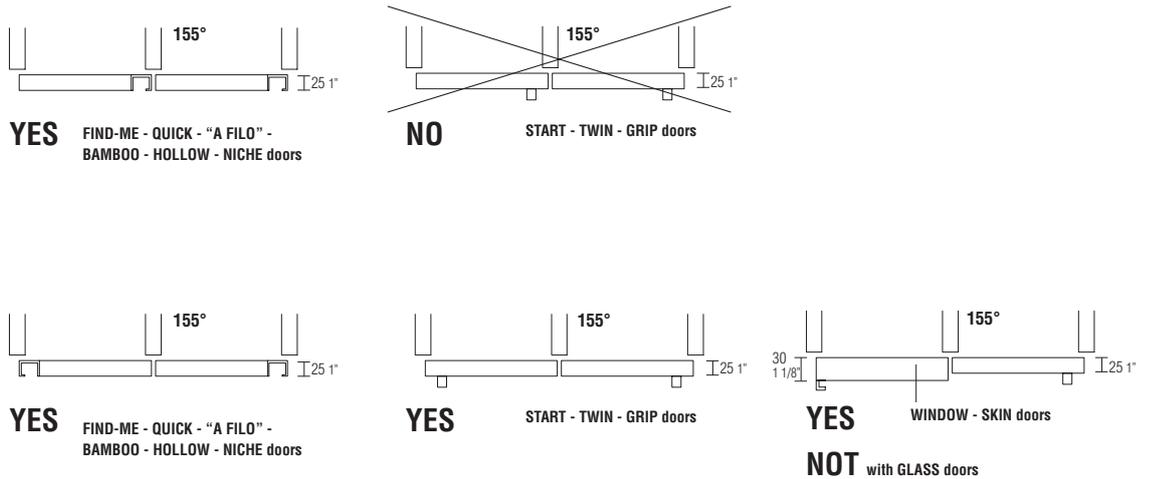

Hinged doors with key lock

For the hinged doors specified, a key lock can be fitted to order. There is a additional cost for one or two doors.
It can even be fitted on a terminal element or a corner element (in compliance with the handle installation rules).
For doors with a lock, the internal drawer units must be suspended.
Installation of only the lock can be requested, without a handle, always considering the price of the START doors and the additional cost of the lock.

SISTEMA 7

A new folding opening system with a patented mechanism which makes it possible, in the 180° version, to open the unit entirely.
The mechanism, light and silent, does not require tracks and therefore allows use of the full height.

The hinged doors enable 180° opening and wardrobe width made to order; the special hinge pins are anchored to the base and the cover.
Anyhow, SISTEMA 7 hinge doors can be used.

The 90° opening, on the other hand, is an intermediate solution that can solve design problems while maintaining a uniform design.

The thickness of the wood and glass door are 35 mm.

SISTEMA 7 can be applied to all Gliss Master structures with wood, glass or frame sides, but cannot be used with other Gliss Master doors.
The 90° and 180° folding door is applied to modules with width 790 and 954, while the hinged door is applied to single modules 380/462/626, double modules 790/954/1282 and the corner unit.
The 380 mm unit is specific for SISTEMA 7 with hinged door.

Reductions
90° and 180° folding openings can be reduced in height only.
180° hinged openings can be reduced in height and in width up to 405 mm.

Notes
The side panels follow the same logic as Gliss Master (see drawing •).

CORNER ELEMENT

Open corner element P 595

The open corner element is supplied complete with base, top and backs (melamine faced structure, piqué or fine grain). The melamine-faced, frame or glass central partitions must be inserted between the corner element and the adjacent modules.
The open corner element can also receive a side panel to close the composition.

Doors can be applied to the open corner element by following the rules below:
- GLASS door (180°) on corner element 1282x1282 / 1101x1101 with all types of side panels (wood, frame or glass);
- SISTEMA 7 door (180° hinged and 180° folding) only on corner element 1101x1101 with all types of side panels;
- QUICK and "A FILO" door (155°) only on corner element 1101x1101 with wooden side panels.
Compartments adjacent to the corner element can be either open or closed with the same door model.

Notes
The shelf is not included in the price of the corner element.
LED lighting bars can be applied to the shelves and lids, as shown in the drawing below.

Reductions
The corner element can be reduced in height, width and depth.
Width reduction can only be performed on one side or on both sides up to a minimum width of 1101 mm.

Depth reduction can be performed on either one or two sides up to a minimum depth of 435 mm. If only one side is reduced, it will be the one with the longer shelves (*).

STRUCTURE

Structure for walk-in closet

In version **A**, the structure (base, lid, central partitions, back and side panels) is in melamine, in the same finish as the structure.
The back piece can also be provided in fine grain finish or in glass max H 2631.
The side panels are always provided without extension profile (see detail).
In version **B**, the central partitions and sides are made with an aluminium frame with pewter colour or bronze finish, with or without glass.
Base, lid and back piece are in melamine, in the same finish as the structure.
The back piece can also be provided in fine grain or glass finish max H 2631.
Horizontal tags on the base and lid are made in a pewter colour or bronze finish like the side frames.
In version **C**, given the presence of frame sides in pewter colour finish, the central and side partitions in melamine are also made with from tags in pewter colour or bronze.

** Notes
The central melamine sides with front profile, frame and glass are available with an Eco Skin insert, only for use in walk-in closets.

STRUCTURE

Linear modules

Linear modules are made up of a base and lid always made in melamine in the same finish as the structure.
The back is available in the three versions indicated below.
A1 and **A2** can be reduced in height, width and depth if closed by sides and doors that are compatible with the requested reductions.
A3 can be reduced only in height.

Central partitions

These are available in melamine, in the same finishes as the structure, frame and glass.
The melamine version can be reduced in height and depth.
The frame and glass versions can be reduced only in height.
Compartments with frame or glass sides must always include a shelf or a drawer unit.
A version with an Eco Skin insert is available for use in walk-in closets.

Side panels

These are available in melamine, in the same finishes as the structure, frame and glass.
The melamine version can be reduced in height and depth.
The side exterior is available also in matt lacquer, glossy lacquer or wood finish (vertical grain).
The standard finish on side panels is an extension profile in the coloured matt lacquer, pewter colour, bronze (to be specified in the Order). The extension profiles for glossy lacquer or wood side panels always match the side panels of the same finish.
The frame and glass versions can be reduced only in height.
Compartments with frame or glass sides must always include a shelf or a drawer unit.

* This compartment can be closed with a QUICK, "A FILO" and NICHE door (vertical and horizontal).
For glass backs, drawer units are mandatory for compartments with frame or glass sides.
For melamine structure, piqué or fine grain backs, use drawer units that are narrower than the module.

Dimensions in millimeters and inches. The right to discontinue and make changes is reserved. This information is based on the latest product information available at the time of printing.

EXTERNAL CORNER UNIT

External corner unit

- It can be either open or fitted with doors.
- It is always secured to the melamne central partitions of the adjacent wardrobes.
- The front profile can have a matt lacquered, pewter colour and bronze finish.
- Height, width and depth can be reduced.
- The external corner unit can be closed in all hinged door models.

Reductions

The external corner unit can be reduced in height, width and depth.

* For this side, please consider the wooden central partition surcharge.

SPECIAL PROCESSING - SHAPING

|← min. 339 →|

320

|← max. 461 →|

min. 339

Only on hinged door compartment

Costs to consider:
- Back cut
- Lid cut
- Fixed shelf with surcharge for cut
  (see page 114 of the price list for solid wood shelves)
- Back, fixed price
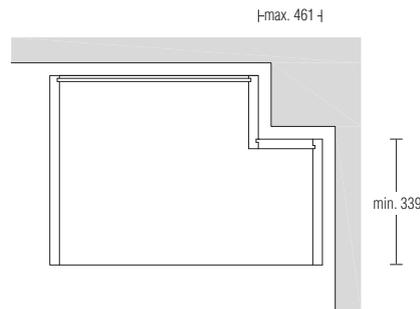

Costs to consider:
- Back cut
- Base/lid/shelf in solid wood
  2 cuts per shaped piece
- 2 additional panels
- Possible cut in side
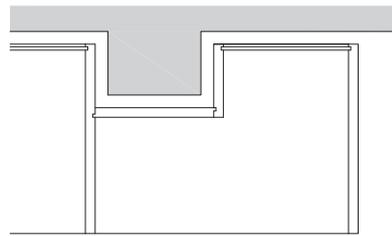

Notes
- Shaping in both height and width cannot be done on the same compartment.
- Confirmation to the customer of the feasibility of shaping will only be given after checking with the Molteni&C Technical Office.

CUSTOM CUTS FOR ATTICS

Doors with slanting cut (only for wardrobes with solid wood sides)
When preparing the order, indicate heights H1 and H2, as well as the width L, as shown in the example.
The price for the slanting cut for each door is the same as cutting for a hinged door, as shown in the doors pages.
In this case a single module must be used with a QUICK, START, TWIN, "A FILO", HOLLOW and GRIP hinged door, with the melamine facade and matt lacquered finishes, hinged on the higher side.
The structures can be standard or made to size.

Standard or made to size doors (only for wardrobes with solid wood sides)
Double compartments with hinged doors can be used for this solution.
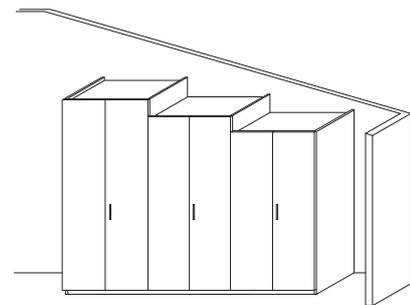

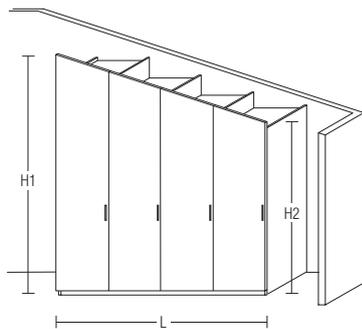

Dimensions in millimeters and inches. The right to discontinue and make changes is reserved. This information is based on the latest product information available at the time of printing.

GLASS TOP FOR WARDROBES FINISHED WITH ONLY ONE COMPARTMENT W 790/954

To use only with:
- single linear module W 790 / W 954
  (no modular arrangement is possible)
- only with glass lateral pieces and glass back panel
- clothes rod cannot be mounted on the lid
- cannot be used with SISTEMA 7 doors

FIND-ME door th 25

Door with full height vertical finger recess included in the door thickness.
The door is available in a hinged version in wood.

All the hinged doors have cushion-closing hinges.
**Hinges with 155° opening can be used and a key lock can be installed on hinged doors.**

Notes

With the fronts in glaze and lunar finish, the exterior of the side panel can be in

matt lacquer or melamine finish like an internal structure.

To match the glaze finish door, we advise the side exterior finish in dolomite grey matt lacquer with finger recess and extension profiles in pewter colour or bronze.

To match the lunar finish door, we advise the side exterior finish in clay matt lacquer with finger recess and extension profiles in pewter colour or bronze.

GLASS door, th 35, 180° opening DESIGN VINCENT VAN DUYSEN

Glass door with 180° opening made with a special soft close hinge inserted in the profile
and completely hidden in the side (exclusively by Molteni).
A full height handle is designed in the profile.

Integrated lock with coded key
GLASS hinged doors with integrated lock are available, taking into account
a surcharge for single door or pair of doors.
As standard, all lockable doors in a wardrobe will have different coded keys.
On the pair of doors, the lock will always be applied to the right door.
The lock is not applicable to hinged doors of the external corner units.

Notes
The GLASS doors are available with H 2889 only for widths 487, 815, 979 and for the
corner unit 1101x1101.
In the pair of hinged doors, the handle is mounted on both doors in the pair.

The GLASS door can also be installed on the open corner module.

SISTEMA 7 glass doors th 35 DESIGN VINCENT VAN DUYSEN

Glass door with aluminium outer profile, th 35 mm.
Patented folding mechanism.
All doors are equipped with soft-closing system.

Notes
Doors are not available with H 2889.

Integrated lock with coded key
Hinged doors with 180° opening and 90° / 180° folding doors are available with integrated
lock, considering a surcharge for single door or pair of doors.
As standard, all lockable doors in a wardrobe will have different coded keys.
On the pair of hinged doors, the lock will always be applied to the right door.
On the 90° / 180° folding doors it will be applied to the upright opposite to the handle
(see section).
The lock is not applicable to hinged doors of the external corner units.

SISTEMA 7 doors th 35

With SISTEMA 7 it is possible to create passageway solutions with doors fastened to Gliss Master wardrobe structures.
This type of solution requires the insertion of a lid between the sides of the wardrobes.
It can be opened thanks to a 180° folding door in wood or glass.

Notes
Doors are not available with H 2889.

WARDROBE

Dimensions in millimeters and inches. The right to discontinue and make changes is reserved. This information is based on the latest product information available at the time of printing.
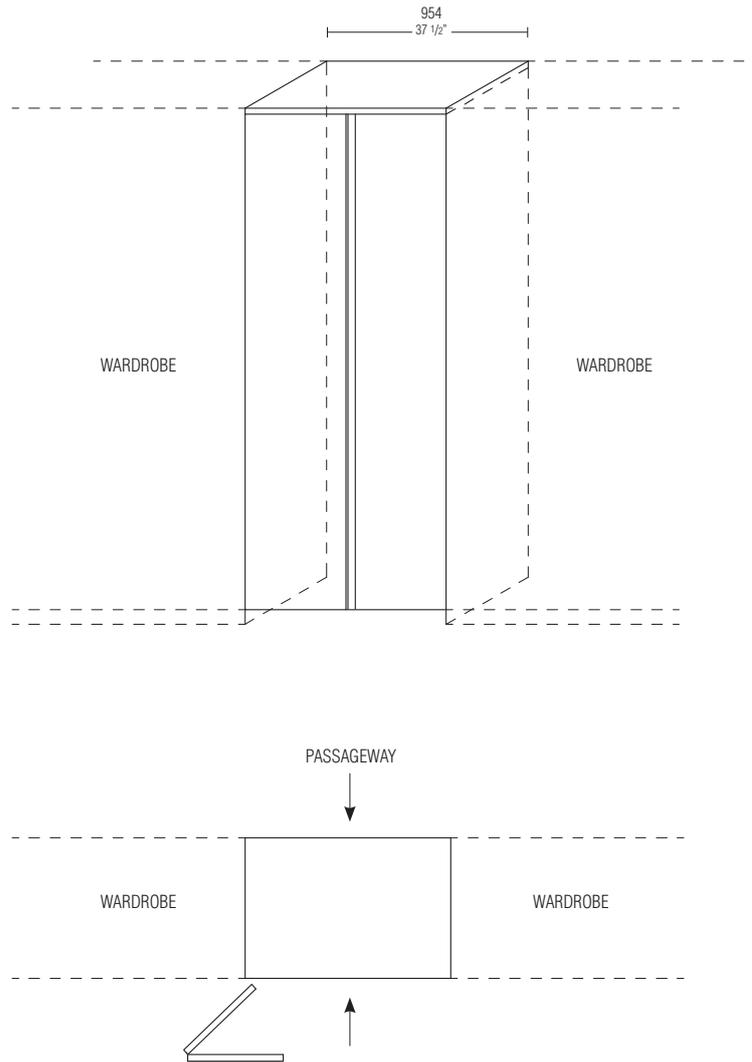

SPECIAL ELEMENTS

Column with open compartment

- Can be inserted only in wardrobes without doors or with hinged doors.
- Central partitions and/or lateral pieces close the column and cannot be frame or glass.
- The open compartment is always in matt lacquered colours.
- Doors are always without handles because they protrude with respect to the structure.
- Drawers are fitted with the "E" handle of the START door.
- Front finish: melamine front, matt lacquered colours, glossy lacquered colours and wood.

* **The price does not include the central partitions or side panels, nor the internal shelves.**

Reductions are allowed only in height, and costs of cutting the structure and doors are applied. Open compartment and lower part cannot be reduced.

Wire passage **EPA1** Ø 60 chrome on request on back**.**

Notes
The back of the open compartment cannot hold a mounted TV.

FILLERS AND OPENING SIDE TRIMS

Horizontal filler
The filler is supplied in two parts, one part to be fixed to the ceiling to which the other will be hooked on (see diagram below).
The distance of the filler from the door is the client's decision.
In the cartapaglia finish, the grain direction is always vertical.
In the wood and graffiato finish, the grain direction is always horizontal.

Vertical filler
The vertical filler can be placed flush with the structure or the door.
This detail must be specified in the order to prepare the side panel (see example).
If this detail is not specified when placing the order, the filler will automatically be placed flush with the structure and the side panel will have the extension profile.

Opening fillers
Can be made with START and "A FILO" door. For handles, consider surcharge.
Always have the 155° hinges.
Are the same height as the other doors in the composition.
Have a closing strip on their lower part.
In the wood finish, the grain direction is always vertical.

LIGHTING SYSTEM

Lighting bars with front LEDs
Internal compartments of Gliss Master wardrobes can be equipped with front LED lighting.
The lighting bar can be applied to lids or to wooden, transparent glass and Eco Skin shelves,
wood and glass shoe rack shelves. Using the electrified wire strip installed on the side
(wood, frame or glass), the shelf can be moved. For each compartment length, we have make
specific lighting bars with wiring compliant with European safety standards.
A wire strip is not needed if the compartment only has lighting on the top piece.
Lighting bars can be reduced with a surcharge for the shelf cutting.

Horizontal and vertical LEDs cannot be used for the same composition.

Notes
When placing the order, the customer must indicate how many shelves with lighting bars
are required.
**For assembly: a lighting system on wardrobe with hinged doors
requires a minimum extra height of 5 cm (2").**
The height can be reduced to 15 mm by inspection on top cod. PAISPCO1.
**Individual wire strip is always installed on the left side panel of the
compartment, with the exception of corner units for walk-in wardrobes and of
the compartment next to the corner unit.**
When ordering, indicate compartments with wire strip.
**The electrified wire strip is mandatory for wardrobes with wooden sides and
glass back.**

INTERNAL ACCESSORIES

Molteni&C

45—
62

Aircub is an air purifier and aroma diffuser that eliminates up to 95% of the harmful agents inside wardrobe through a process of ionisation and ozonation. Aircub can be managed easily from your smartphone with a dedicated app. Aircub can be installed on the back panel of each compartment, insert the electrical plug into the electrical socket and turn it on. Aircub has a single plug.
Up to 3 Aircubs per wardrobe can be installed using the specific multi-socket connect
Information about Aircub is available on the website www.check-up.it in the projects section.

GLASS LID FOR CHEST OF DRAWERS

To be used only in compartments with wooden sides
Modular chests of drawers can be made with a transparent glass lid in the module widths
790/954/1282.
It is mandatory that the first drawer be H 190 in wood (special measure).
Drawer dividers cannot be inserted in the first drawer.
The top can be fitted with a LED lighting bar, but it cannot be connected to the cable holder.
The connection to the power cord has to pass behind the back panel.
Eco Skin bottoms in grey can be inserted.
